

# Medication Disposal Made Easy

---

**A drive-up Drop-Box is now available in Kosciusko County for people to safely discard expired medication. The monitored box is located at the entrance to the Kosciusko County Sheriff's Department parking lot on West Main Street, Warsaw.**

The adverse effects of flooding sanitary systems, lakes and rivers with prescription medications can potentially damage our eco system, habitat, and water quality.

The medication collection box eliminates the potential for illegal or misuse of medication and allows citizens to have their medications destroyed properly by incineration rather than disposing in landfills or a more dangerous method: flushing outdated drugs down a toilet.

The Kosciusko Coalition on Drug Education asks citizens to dispose of expired prescriptions in their original containers if possible.
